3

Term 3

Mrs Angie Motshekga,
Minister of Basic Education

Dr Reginah Mhaule,
Deputy Minister
of Basic Education

These Reception year (Grade R) Rainbow Workbooks form part of the Department of Basic Education's strategy to boost South African children's school performance. Research shows that for every year that children are exposed to stimulating activities before Grade 1, they perform better academically in later years – throughout their primary and secondary schooling. Hence this strong focus on learning in Grade R.

The Foundation Phase curriculum requires that Grade R learners are given the opportunity to develop their pre-reading, pre-writing and pre-mathematics skills and outlines the skills they will need to get a solid educational foundation so that they find it easier to learn in Grade 1 and beyond.

The Grade R workbooks therefore aim to assist children in developing these skills and the key initial concepts they need to lay a solid foundation for learning. They are packed with opportunities for children to develop and practise the skills that will prepare them for formal schooling.

Before children formally learn to read they need to find out how to hold a book and turn its pages, and to understand how books work. They need to understand the relationship between the words and pictures in a book and to realise that words on a page are made up of sounds and have meaning. Similarly, before children learn to write, they need to develop their fine motor coordination, to practise the formation of shapes and then to move on to forming letters. These are precisely the skills that these workbooks aim to develop.

We know that all children do not learn at the same pace the Grade R workbooks make it possible for teachers to work at the learner's individual pace and, where necessary, to go backwards and forwards in the book, in line with each child's unique development. The activities will also assist teachers in identifying barriers that children may have in learning so that these can be addressed before the child starts formal schooling.

The workbooks integrate the teaching of literacy, numeracy and life skills across 20 themes using fun and engaging ways to capture young learners' interest and attention. We hope that your learners will enjoy working through the workbook activities as they grow and learn, and that you, as their teacher, will share in their pleasure.

Shuffle the cards and pack it out on the table face down. Now turn around two cards at a time. If they match you can put them aside. See who can finish by packing away the most matching cards first. Then use your memory cards and play snap with your friends.

Cut out these cards and put them in the correct sequence and then tell the story of what is happening in each sequence.

Follow the instructions and make
this cut-out book.
Take it home and read it to your
friends and family.

MY CUT-OUTS

Let's do.

Cut the page off on the dotted line at the top and glue the page to the back cover to make a pocket. Keep your cut outs here so that it doesn't get lost.

GLUE HERE

GLUE HERE

The animals want to eat the plants.

4

Soon the tomatoes are big and red.

5

We have lots of vegetables to sell at the market.

8

We plant a seed

Everyday Nomsa and Sam work in the vegetable garden.

1

I will have a tomato for
my lunch.

6

Nomsa waters the plants.

3

Soon we will have tomatoes
to eat.

2

Everyone came to see
the garden.

7

Sara must stay in bed.

④ She feels very hot.

Sara has Chicken Pox.

She has lots of spots.

⑤

Sara is well again. She can go back to school. She can now

⑧ play with her friends.

A visit to the doctor

①

Sara goes to the doctor.
The doctor says Sara must
stay at home.

6

Sara has a temperature. She
is too sick to go to school.

3

Sara feels too sick to eat
her breakfast.

2

Sara takes her medicine.
